The City of Winder is committed to doing its part to help support those who are struggling to pay their utility bills. That's why we've partnered with HEAT, a charity that's been helping Georgians get back on their feet by assisting them with their heating bills for 40 years. Since HEAT was established in 1983, more than \$31 million has gone to help over 120,000 families in need.

Your gift will help provide direct assistance to those in need. The money donated to HEAT is distributed by the Georgia Division of Family and Children Services. The recipient could be parents who are now unable to support their children with hourly wage jobs, an elderly couple who can no longer afford both medication and groceries, or a disabled veteran suddenly overwhelmed by an unexpected expense. If you have questions, please call the City of Winder at (770) 867-3106 or HEAT directly at (678) 406-0212. On behalf of your neighbors who will stay warm during the winter because of your generosity, thank you.

**Yes, I will help a family in need by supporting HEAT.**

Ways to contribute:

Round Up – I would like to round up my utility bill to the next even dollar amount and donate the change to the HEAT.
